

**CITY OF SEQUIM**  
**FINAL STAFF EVALUATION FOR ENVIRONMENTAL CHECKLIST**  
**FILE NO. SEP16-012**

**PROJECT:** Proposed revisions to Chapters 8.36, 18.80, 13.40, 13.64, 13.104 and 13.108 of the Sequim Municipal Code.

**DESCRIPTION OF PROPOSAL:** This proposal is to update the City's development regulations, stormwater management regulations and enforcement chapters of the Sequim Municipal Code (SMC) to amend conflicting, confusing, out of date, or inconsistent code language. The updates allow the SMC to be streamlined. The majority of suggested changes related to stormwater management are found in SMC 13.104 and 13.108. However, enforcement subsections in these two chapters have not been revised.

The proposed revisions to the following sections of the Sequim Municipal Code (SMC).

- Section 8.36.042 – Adds Stormwater Manual to compliance requirement
- Section 18.80.070 – Adds references to Stormwater Management 13.104 and Stormwater Maintenance 13.108
- Section 13.40.010 – Revisions to Connections Required
- Section 13.64 – Removes Storm Drainage chapter
- Section 13.104 – Revisions to Stormwater Management
- Section 13.108 – Revisions to Stormwater Maintenance

The full text of the proposed changes are attached to this evaluation.

- 15. Public Services:** Concur with Checklist
- 16. Utilities:** Concur with Checklist

## **C. Signature**

Concur with Checklist

**D. Nonproject Action:**

Concur with Checklist

**E. Conclusion:**

Based on the analysis, the proposal can be found to not have a probable significant adverse impact on the environment; therefore, the lead agency for this proposal has determined that it does not have a probable significant adverse impact on the environment. An environmental impact statement (EIS) is not required under RCW 43.21C.030(2)(c). This decision was made after review of a completed environmental checklist and other information on file with the lead agency. This information is available to the public on request. The City reserves the right to review any future revisions or alterations to the site or to the proposal in order to determine the environmental significance or non-significance of the project at that point in time.
